Sanitation Toilets & Chemicals

Our range of sanitation products has grown significantly and is reflected in this catalogue. New products include our own Camec branded portable toilets available in two sizes. Additionally we have expanded our range of consumables and have added the Porta Pak Express waste digester and deodorizer for waste holding tanks to compliment our very popular Bio-Pak Express product. Of course you will still find a comprehensive range of Thetford cassette toilets. You will also find a range of fixed toilets for larger RV's, buses and houseboats along with a range of toilet fittings. We also have a range of waste holding tanks ranging in size from 128 litre up to 225 litre.
